Dartmouth Medicine seeks to convey the breadth and depth of the education, research, and clinical activities of DMS and DHMC; to serve as a publication of historical record; to stimulate thought and discussion on issues in medicine and medical education; and to reflect the range of opinions and activities among Dartmouth medical students, faculty, and alumni. Abbreviations used in these pages include DMS (Dartmouth Medical School), DHMC (Dartmouth-Hitchcock Medical Center), MHMH (Mary Hitchcock Memorial Hospital), and DC (Dartmouth College). The opinions of contributors do not necessarily reflect those of DMS or DHMC.

Dartmouth Medicine is published four times a year—the Fall issue in mid-September, Winter in mid-December, Spring in mid-March, and Summer in mid-June.

We are happy to send Dartmouth Medicine—on a complimentary basis—to anyone who is interested in the subjects we cover. Call or write (see below) if you’d like to be added to our rolls. Please note, however, that the complimentary subscription offer can be extended only to U.S. addresses.

Our mailing list comes from seven separate databases, so some readers may receive more than one copy. Please share extras with someone else, or let us know (see our contact information below) the name and address and the codes above your name on all the copies you receive, and we’ll be glad to eliminate the duplication.

The contents of this magazine may not be reproduced without permission, but we are often able—and glad—to extend such permission.

To reach Dartmouth Medicine: U.S. Mail: 1 Medical Center Drive (HB 7070), Lebanon, NH 03756 FedEx/UPS: 21 Lafayette Street, #303, Lebanon, NH 03766 Phone: 603-653-0772 Fax: 603-653-0775 E-mail: DartMed@Dartmouth.edu Web: dartmed.dartmouth.edu

Dartmouth Medicine
A Magazine for Alumni and Friends of Dartmouth Medical School and Dartmouth-Hitchcock Medical Center
Vol. 34, No. 2 Winter 2009

FEATURES

An Uphill Battle
By Amos Esty
26
Toxic pollution from small-scale gold-mining. Indiscriminate use of an antibiotic that can lead to hearing loss. Scarce or nonexistent healthcare resources. Those are a few of the problems that are drawing more and more people with Dartmouth ties down to Nicaragua.

“The most unspeakable terror”
By Emily Baumrin, William Corbett, Amita Kulkarni, and Lee A. Witters, M.D.
36
In the 1800s, childbirth was often fraught with fear and death rather than joy. But growing knowledge about the cause of puerperal fever—also known as childbed fever—eventually brought the epidemic of maternal and infant mortality under control.

The Longest Run
By Jonathan A. Stableford
44
When a fit-as-a-fiddle marathoner collides with a near-fatal bout of pneumonia, he finds that getting back on his feet takes far longer than he had imagined. In fact, his recovery calls for more fortitude, emotionally and physically, than a grueling road race.
