Dartmouth Medicine seeks to convey the breadth and depth of the education, research, and clinical activities of DMS and DHMC; to serve as a publication of historical record; to stimulate thought and discussion on issues in medicine and medical education; and to reflect the range of opinions and activities among Dartmouth medical students, faculty, and alumni. Abbreviations used in these pages include DMS (Dartmouth Medical School), DHMC (Dartmouth-Hitchcock Medical Center), MHMH (Mary Hitchcock Memorial Hospital), and DC (Dartmouth College). The opinions of contributors do not necessarily reflect those of DMS or DHMC.

Dartmouth Medicine is published four times a year—the Fall issue in late September, Winter in late December, Spring in late March, and Summer in late June.

We are happy to send Dartmouth Medicine—on a complimentary basis—to anyone who is interested in the subjects we cover. Write us if you’d like to be added to our rolls. Please note, however, that the complimentary subscription offer can be extended only to U.S. addresses.

Because our mailing list comes from six separate databases, some readers may receive duplicate copies. Please share extra copies with someone else, or send us the address panels from all the copies you receive, and we will be glad to eliminate the duplication.

The contents of this magazine may not be reproduced without permission, but we are often able—and happy—to extend such permission.

DARTMOUTH MEDICINE
A Magazine for Alumni and Friends of Dartmouth Medical School and Dartmouth-Hitchcock Medical Center
Vol. 31, No. 1 Fall 2006

FEATURES

Opening Doors
Photographs by Patrick J. Saine
Text by Laura Stephenson Carter and Cara A. Mathews, M.D. 32
DMS has had a partnership with a Tanzanian medical school since 2000. What began as a single clinical trial is now a multifaceted exchange program that is opening doors, opening minds, and changing lives.

Dr. Mom & Dad
By Katrina Mitchell, M.D. 42
When the juggling act of a child or two meets the juggling act of a medical practice or two, there can be a lot of balls in the air. Here, several DMS alumni and faculty reflect on the challenges—and the joys—of balancing patients’ needs at work with kids’ needs at home.

A Vulnerable Place
By Emily R. Transue, M.D. 48
A remote Alaskan village. An elderly woman with Alzheimer’s disease. The son who cares for her. These are the key elements in an experience that a DMS student had during one of her clerkships. The encounter took place over a decade ago, but its essentials are timeless and universal.

COVER
Dr. Johnson Lyimo, a Tanzanian physician for a clinical trial run jointly by Dartmouth and Tanzania’s Muhimbili University, is an M.P.H. graduate of DMS. For insights into the program that brought the two schools together, see page 32. The photo is by Patrick Saine.

DEPARTMENTS

Discoveries 3
Hard data about software 3
A tally of off-label drug use 4
DES’s generational ripples 5
A biofilm crew 6
Less is more, yet again 7
Smoking on the silver screen 8 . . . and more.

Vital Signs 9
A class act 9
Amazingly simple stencil 12
CLIPP out this article 13
A subject worth harping on 14
Building plans for DMS 16
The price of care 17
Good night, sleep tight 18
Big Apple to Big Green 22 . . . and more.

Student Notebook 27
By Daniel J. Kaser

Letters 28

Transforming Medicine Campaign 54

Faculty Focus 56
Diane Harper, M.D., M.P.H.

Alumni Album 60
Craig Thompson, M.D., ’75

Grand Rounds 62
By Burton Eisenberg, M.D.

Point of View 64
By Antonia Novello, M.D., Dr.P.H.

For the Record 66
By Stephen P. Spielberg, M.D., Ph.D.

Art of Medicine 68
Kathryn Marin Collins, M.D.
