

Dartmouth Medicine seeks to convey the breadth and depth of the education, research, and patient-care activities of DMS and DHMC; to serve as a publication of historical record; to stimulate thought and discussion on issues in medicine and medical education; and to reflect the range of opinions and activities among Dartmouth medical students, faculty, and alumni. Among abbreviations used regularly in these pages are DMS (Dartmouth Medical School), DHMC (Dartmouth-Hitchcock Medical Center), MHMH (Mary Hitchcock Memorial Hospital), DC (Dartmouth College), and HS (housestaff). The opinions of contributors do not necessarily reflect those of DMS or DHMC.

Dartmouth Medicine is published four times a year—in Fall (September), Winter (December), Spring (March), and Summer (June). It is produced using a Macintosh G3 and Quark XPress 4.04.

We are happy to send Dartmouth Medicine—on a complimentary basis—to anyone who is interested in the subjects that are covered in the magazine. Write us if you'd like to be added to our rolls. We regret, however, that the complimentary subscription offer can be extended only to addresses within North America.

Because our mailing list comes from eight separate databases, some readers may receive duplicate copies. Please share extra copies with someone else, or send us the address panels from all the copies you receive and we will be glad to eliminate the duplication.

FEATURES

In Schweitzer's Shadow By William Anninger 22

Three months of working at the Albert Schweitzer Hospital in Africa. Three months of contemplating the legacy of the fabled French humanist. Three months of pondering his own future in medicine: A DMS student reflects on his time in the shadow of the late great medical missionary.

Doing Battle 28

The Veterans Affairs medical system has long been doing battle against the special health problems of veterans. And, of late, the VA has been engaged in fiscal battle. Here are some insights into the patient population the VA serves and into how Dartmouth benefits from its affiliation with the White River Junction VA.

Once and Future Medicine By Laura Stephenson Carter 36

What a difference a century makes! First look back at some of the medical and technological advances that have occurred since 1900, then marvel at some prognostications about the state of medicine in 2100.

Intimate Strangers 44

The wonders and mysteries of the world of microbes are explored in a new book coauthored by the former chair of biochemistry at DMS. Here are some excerpts from the just-published work.
